

## Crystal Clear USB Audio with Push-to-Talk Switching

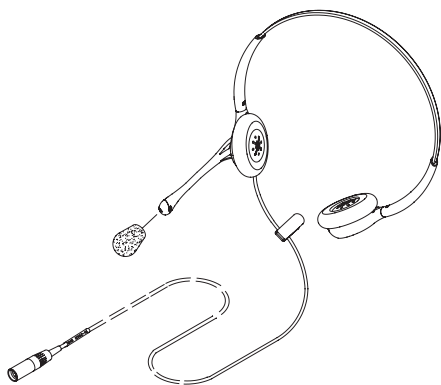

SHS 2371-01 (STEREO)

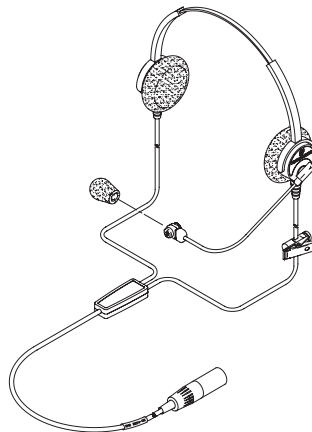

SHS 2355-01 (MONAURAL)

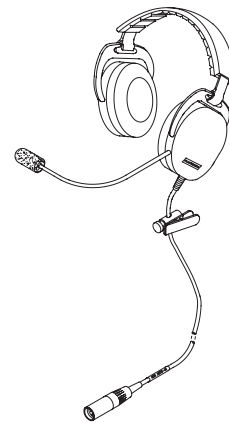

- > Push-to-Talk amplifiers by Plantronics, the proven standard for Air Traffic Control and Public Safety Dispatch, are now available with USB interfaces.
- > Compatible with standard USB drivers.
- > Used with training simulators, VoIP communications and speech recognition - anywhere that high quality USB audio with push-to-talk switching is required.
- > Available in monaural and stereo.
- > User comfort guaranteed by a wide range of compatible Plantronics headsets.

SHS 2362-01

SHS 2294-01

SHR 2073-01

SHS 2371-01 (stereo) works with the stereo headsets shown above. Left channel only headsets (models SHS 2069-01 & SHS 2378-01) are also available for the SHS 2371-01.

SHS 2355-01 (monaural) works with any Plantronics H-top headset.

The push-to-talk switch enumerates as button 1 of a single button game controller.
