

VCOM DEMO GUIDE FOR iOS

TO DEMO VCOM:

1. Download VCOM iOS for free from the Apple iTunes App Store, keyword search “vcom”;
2. Once installed touch your VCOM icon to get to the configuration splash screen;
3. Enter a user name of your choice (first name recommended), “vcom” as the password, ‘Virtual Matrix IP Address’ 216.189.144.41, and touch “Login”.

It is recommended that you schedule a demo with your sales representative as the demo system is not regularly monitored.

FIREWALL INFO FOR NETWORK ADMINS:

To connect to the VCOM server set up for demos over the public internet allow a TCP connection for data on port 1000 (outbound) and UDP connection for audio on port 1000 (outbound).
